Columbia, SC

## Goals

The goals I want to accomplish while working are thinking of and implementing new ideas that will benefit the work environment as a whole and creating new, professional relationships with coworkers.

## EXPERIENCE

**Server Assistant; Hearth Pizza/ Plums Inc.**

- **September 2023- August 2024**
- I was responsible for maintaining customer happiness by bringing out food and tending to their needs. It was also dictated that I do whatever I could to help out the server on duty, where that be busing tables or running food. It was a very cooperative job, and I excelled in that field.

**Cashier; Food Lion Stores**

- **May 2022- September 2022**
- My responsibility was to help customers quickly and efficiently with checkout. It was my responsibility to communicate with customers to make sure they were satisfied with the service I provided, as well as communicating with other coworkers to keep them supplied with bags, grocery baskets, and more. It was very important that we used the electronic register to locate groceries, such as a specific brand of apples as well as how much they weigh, to ensure customer satisfaction.

## Accomplishments

- National Honor Society Rep.
- Associate's Degree in General Ed; TCL
- Honor Role; TCL and Brigs Prep.

## SKILLS

- Intermediate Skills in Html, CSS, Java, and GitHub
- Elementary Spanish Skills
